

B 62, redevelopment of the corner Eckelshausen

From Monday, 04. June to probably end of August, the thorough renovation in the town center of Eckelshausen begins. During the three construction stages, Roth Hydraulics can not be approached temporarily via the B 62.

The access from the direction of Biedenkopf or Bad Laasphe must therefore from June 4 to July 26 via the signposted diversion on the B 62 (Wallau), the B 253 (Breidenbach), the L 3049 (Steffenberg) and the L 3042 (Hommertshausen) to the B 453.

The access from Marburg has to be done from June 25th to end of August via Friedensdorf in the direction of B 453 (Dautphe and Wolfgruben).
